19. Why is Detroit real estate so oddly handled that its sale benefits neither buyer nor seller, that the city loses whenever it changes hands, that the city loses when it is not sold, and that the city cannot even make money taxing it?
20. Since the city during the pending chapter 9 bankruptcy is governed in every way by the bankruptcy judge, bankruptcy statues, bankruptcy rules, and the department of justice through the office of the united states trustee, why cant the emergency financial manager be withdrawn forthwith, his services having ended with the filing of the instant bankruptcy?
21. What possible tasks can the emergency financial manager now perform when his powers emanated from the governor and his goal to take Detroit into bankruptcy has been achieved?

22. Why will Detroit be able to strip itself of obligations to persons damaged by its employees?

23. How will the Detroit emerging from a chapter 9 in any way benefit the citizens it damaged prior to entering the chapter 9?

24. Why did the city make no effort to negotiate with individuals who sued the city? Is it the city's policy to go into lawsuits against its citizens rather than to try to work things out with its citizens? Wouldn't the city save a lot of money by paying attention to its citizenry rather than fighting its citizenry?
